

PRESS RELEASE

CMF makes available to supervised parties frequently asked questions and answers on the sustainability and corporate governance regulation recently issued

December 23, 2021 — After the issuance of General Rule No. 461, the Financial Market Commission (CMF) helps to clear doubts of its supervised entities about it. Said General Rule incorporates sustainability and corporate governance issues in annual reports. It will be applied to banks, insurance companies, issuers of publicly offered securities, general fund managers, and stock exchanges.

The aim is for supervised entities to report on their policies, practices and goals adopted in environmental, social and governance (ESG) matters. ESG information allows both investors and the public to evaluate investment alternatives in which their interests will be better protected, as well as identify companies able to better identify, quantify and manage their risks.
