

CMF invites interested parties to participate in workshops on IFRS S1 and S2 international sustainability reporting standards

- *To assist supervised entities in implementing General Rule No. 519, the first workshop session will be held on June 16 and feature an expert from the IFRS Foundation.*

June 4, 2026 — The Financial Market Commission (CMF) invites interested parties to participate in the process of assisting supervised entities in implementing General Rule No. 519 and adopting IFRS Standards S1 and S2 issued by the International Sustainability Standards Board (ISSB) of the IFRS Foundation.

This initiative aims to create a space for dialogue to gather the industry's perspectives, experiences, and needs regarding its readiness to report in accordance with these standards, in line with the CMF's commitment to actively support the regulation's implementation.

Supported by the Inter-American Development Bank (IDB), this process is set to begin on June 16 with a technical kick-off session. IFRS Foundation representative Arturo Rodríguez will present the key aspects of the standards — including transitional relief and proportionality mechanisms designed to facilitate their implementation — and will address participants' questions.

Subsequently, a series of workshops will be held between June 22 and 30 featuring roundtable discussions where participants can raise questions and concerns regarding the regulation's implementation.

The CMF will systematize all information gathered to be used as input for developing future guidelines, clarifications, and support tools designed to facilitate reporting in accordance with the standards.

Registration is now open. Please note that the workshops have limited capacity, so registration is subject to confirmation via email.
