

CMF warns about unregulated investment platforms

April 22, 2024 — The Financial Market Commission (CMF) alerts the public about two platforms offering investment services that are neither enrolled with nor supervised by the Commission. These are:

- **Intermagnum**, which operates through the **intermagnum dot com slash es** website.
- **Ifexcapital**, which operates through the **ifexcapital dot com slash es** website.

Before making any investment, the CMF recommends investors to always do their research on products and companies they are considering investing with by taking the following actions:

- Check the [CMF website](#) to confirm whether the relevant company is registered in Chile, and which parties are responsible for its management.
- Use popular Internet search engines to identify any complaints or negative feedback about the company through its name, its directors, and the products being considered for investment.

The Commission also reminds the public about [the special alerts page for investors, policyholders, and banking customers available on its website](#). Interested parties can verify here whether an entity or person offering financial products or services is supervised by the CMF; check alerts issued by the CMF and other foreign regulators on unregulated entities or activities; and other important advice for the protection of investors, policyholders, and financial clients.
